5. CONNECTION AND OPERATION

Charging the battery

- Before starting operation, the battery must be fully charged. The charger is not included. Charge this device with a DC 5V/ 2A universal charger or with a computer.
- It is not recommended to leave the device connected to the charger for a long time after it is fully charged.

Do not charge the speaker system at low ambient temperatures.

Bluetooth mode

- Turn the unit into Bluetooth mode with the MⓈ button repeatedly. The device will turn into search mode.
- Select a Bluetooth device search mode on the audio source (mobile phone, tablet, etc.). The display will show the name «REAL-EL X-715» which need to establish a connection with. After a successful connection, the loudspeaker will sound a signal.

TWS Bluetooth connection

- Turn on two identical «REAL-EL X-715» systems and activate Bluetooth mode.
- On one system, press and hold the MⓈ button to enter the TWS connection mode (beep will sound), a short beep will sound after successful connection.
- Connect the system to an audio source.
- To disconnect TWS mode, press and hold the MⓈ button.

USB playback mode

- Insert the USB flash drive into the corresponding slot, the sound track will be played automatically.

Note:

During Bluetooth playback mode, if USB is connected, Bluetooth will be disabled and USB playback will start. Press the MⓈ button to return to Bluetooth mode again.

NO POWERBANK FUNCTION.

The USB connector is designed for connecting USB storage media. Do not use this connector to charge other devices - this may cause the speaker system to malfunction.

AUX wired connection mode

- Select AUX playback mode.
- Connect the audio source using a 3.5mm cable.

Note:

When using a wired connection, control is provided from the audio source.
